

Testimonials

“I used to twist and lean over the arm of the couch to do crossword puzzles. My back would always kink up. Now with my lap desk I can relax and not twist my back; it supports my arms, too. I am so much more comfortable!”

-Ane M.

“Ankle reconstruction surgery, which includes some very cumbersome hardware attached to my leg, has had me working from my home for over four months. Because of pain and swelling it’s imperative that I keep my leg elevated. My Lap Desk has made my life so much easier. I can sit in bed, in a recliner or regular chair and use my lap top computer. It’s stable and totally comfortable in my lap. I also use it regularly for reading newspapers or books because it angles the material very comfortably and takes the stress off my back and neck. Worth the price a zillion times over!”
